	<p>Warning</p> <ul style="list-style-type: none"> • Always walk in designated areas adjacent to tunnel walls furthermost from running lines. • DO NOT enter the tunnels unless wearing the correct PPE.
--	--

Entering a tunnel	<ul style="list-style-type: none"> • Check if rail traffic is stabled in the tunnels. • Check the timetabled arrival of rail traffic being stabled and departures of stabled rail traffic. • Check that track warning light is ON, indicating that there is no current rail traffic movement. • Check that the track into the tunnel is clear of approaching trains. • Use the access ramp to proceed from the platform to the track. • Use the closest crew compartment access to enter the stabled train. • If a train being stabled approaches while you are on track, use one of the refuges provided.
--------------------------	---

	<p>Warning</p> <p>DO NOT access the Down or Up Shore Line tunnels (Numbers 1 and 4).</p>
---	---

Exiting a tunnel	<ul style="list-style-type: none"> • Exit the train from the crew compartment access closest to the platform. • Check the track is clear of approaching trains. • Check that track warning light is ON, indicating that there is no current rail traffic movement. • If a train being stabled approaches while you are on track, use one of the refuges provided. • Use the access ramp to proceed from the track to the platform. • Report that you are clear of the tunnel to the Station Manager/Duty Manager.
-------------------------	---

Additional controls	Take extra care to avoid trip and other hazards due to the reduced lighting and restricted nature of the tunnels.
